1. What is a National Framework Agreement?

The National Framework Agreement is a contract entered into between PURCOSA and suppliers, under which the supplier will provide products or services across the PURCOSA Membership.

The framework agreement only establishes the terms and conditions governing call-off contracts to be awarded during the framework agreement period. The terms and conditions will form the basis for subsequent orders placed by the Membership.

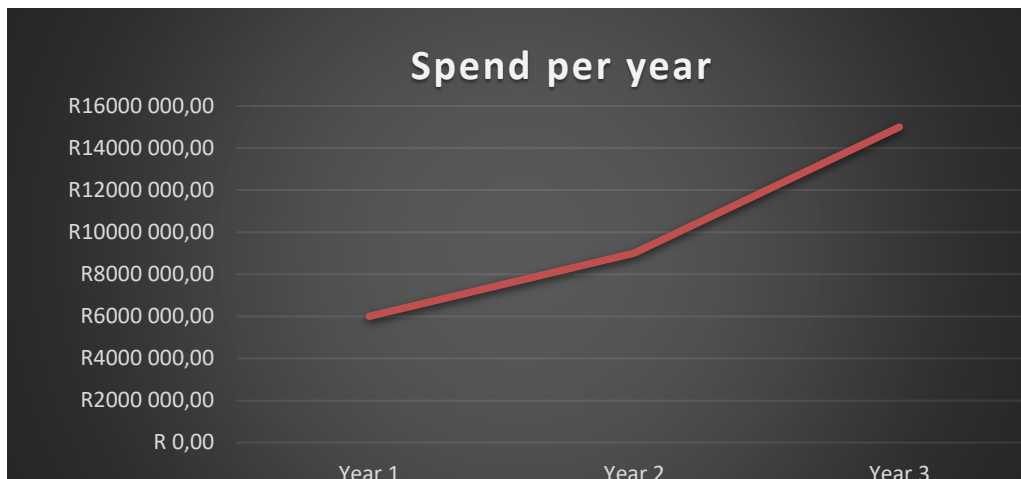

The framework agreement places no obligations on the Members to use these suppliers should there be no demonstrable benefits. There is also no guarantee that upon conclusion of the tender process, contracts and/or orders will arise for the pre-qualified suppliers on the framework agreement panel.
